DYS.

Wordwall

Wordwall

This is an online platform for creating engaging and customizable learning activities and games (like quizzes, match-ups, missing word, anagrams, etc.) from basic learning material. A key feature is the ability to instantly switch a resource between different formats (e.g., a "Quiz" can become a "Word Search" or a "Random Wheel") without re-entering the content.

Target Audience

Youth workers, educators and trainers: Ideal for creating flexible, engaging review materials and differentiation.

Youth: The gamified, varied, and visual nature helps with short-term memory, focus, and reading/spelling practice (dyslexia/dysgraphia)

Benefits of this tool

Easy Differentiation & Inclusion: You can instantly switch content between 18+ game types (e.g., Quiz ➡ Word Search). This helps students with SLD practice concepts in a way that suits their needs, without feeling singled out.

Focus Boost & Less Fatigue: The fun, high-energy games improve focus and sustain attention for SLD/ADHD users. It makes reviewing material interactive and stops them from getting bored or mentally tired from repetitive tasks.

Additional Considerations

✓ **Multilingual support:** Wordwall is available in more of 20 languages.

✓ **Cost considerations:** The free version limits interactive resource creation, so prioritize essential and reusable content.

✓ **Technical requirements:** It can be used on different digital devices (smartphones, tablets, computers).

✓ **Adaptations for SLD users:** Accessibility Features (Contrast), Time Pressure and present Wordwall as a fun review tool and not as a formal assessment.
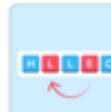

How to Use with Youth

1 Create a customized resource with just a few words and a few clicks.

2 Pick a template. Enter your content.

3 Play your activity on any device or print it.
