

Mentimeter

Mentimeter is an interactive presentation tool that makes sessions more dynamic and participatory. With real-time polls, quizzes, word clouds, and open-ended questions, it creates inclusive spaces where everyone can share ideas anonymously. It turns traditional presentations into engaging, collaborative experiences.

Target Audience

- Youth workers:** Educators, trainers, and facilitators who wish to make sessions more engaging and interactive.
- Social workers:** Experts working with diverse or marginalised groups to encourage dialogue and participation.
- Youth:** participants in workshops, trainings, and educational programs who benefit from expressing themselves freely and being actively involved.

Benefits of this tool

- Promotes equal participation by letting youth share ideas anonymously, supporting those hesitant to speak.
- Boosts engagement through visual, real-time feedback and interactive questions.
- Builds collaboration and belonging, turning sessions into shared learning experiences.

Additional Considerations

- Multilingual support:** Interface and content available in multiple languages, including English, Spanish, French, German, and more.
- Cost considerations:** Freemium model – free basic version with limited slides per presentation; paid plans unlock unlimited features and detailed analytics.
- Technical requirements:** Works smoothly on any device with an internet connection; accessible via browsers or mobile devices without needing installation.
- Adaptations for DYS-users:** The platform's clear layout, minimal text, and strong visual feedback help DYS-users process information comfortably and participate confidently.

How to Use with Youth

- 1 Create an account at www.mentimeter.com using an email or Google/Microsoft login. Design your presentation by choosing a template or adding interactive slides like multiple choice, scales, word clouds, and quizzes.
- 2 Share the participation code so youth can join via www.menti.com on their phones or laptops. Facilitate the session by showing live results that spark discussion and highlight key themes.
- 3 Afterward, save and analyse the results to review feedback, improve future sessions, or document project outcomes.
