

## EVERYDAY CONCEPT

### ACTIVITY SPECIFICS:

**Tool type:** Social Activity

**Our inspiration:** Taboo

**Format:** Offline

**Time needed:** 15 min

### SET-UP

18 x Concept cards

**Number of participants:** 2 - 6

### Focus (SLD topic)

Learning disorders awareness

### ACTIVITY OVERVIEW

In this Taboo-style activity, participants describe everyday concepts to their partner without using a set of forbidden words. Their partner must guess the concept before the timer ends. The activity encourages creative communication and helps participants experience how language limitations can affect understanding, simulating some of the challenges faced by individuals with Specific Learning Disorders (SLD).

### INSTRUCTIONS / STEPS

Participants work in pairs. Each pair receives a card from the deck. The card contains the name of an everyday object or concept, along with a list of words that cannot be used when describing it.

One participant takes the role of the describer and reads the card. Without using the forbidden words listed on the card, they must explain the concept to their partner before the end of the timer.

## EVERYDAY CONCEPT

The other participant must try to guess the concept based on the description provided.

Once the concept is guessed, the participants switch roles and continue with a new card.

After the other card is guessed, the participant draws another card until the end of the timer. When the timer ends, the couple switches roles and starts the activity again.

When the two turns of the couple are completed, the next couple decides the roles and starts another round.

The activity ends when all the couples have done one round of the activity.
